PROFESSIONAL SUMMARY

Results-driven Software Engineering graduate with hands-on experience in full-stack web development, Artificial Intelligence, Machine Learning, data analysis, and system architecture design. Proficient in developing scalable applications using React.js, Next.js, ASP.NET, and PHP (Laravel), with strong expertise in database management and API development. Skilled in UI/UX design and delivering end-to-end solutions from concept to deployment. Committed to building efficient, secure, and user-focused software systems.

EDUCATION

Bachelor of Engineering (Hons), Computer Software Engineering Jan 2025 – Jan 2026

London Metropolitan University, United Kingdom

Status: Completed, Results Second upper

Pearson BTEC Higher National Diploma, Computer Software Engineering Jan 2023 – Jan 2025

ESOFT Metro Campus, Sri Lanka

Grade: Merit

General Certificate of Education (O/L and A/L) 2018 – 2021

Siri Saman College, Deraniyagala, Sri Lanka

TECHNICAL SKILLS

-
- **Programming Languages:** Python, C#, JavaScript, Java, Dart
 - **Frontend Technologies:** HTML5, CSS3, React.js, Next.js, Vue.js, Bootstrap, Flutter
 - **Backend Technologies:** FastAPI, ASP.NET MVC, Node.js, Express.js, NestJS, PHP (Laravel)
 - **Databases:** MySQL, Microsoft SQL Server, PostgreSQL, MongoDB, Supabase
 - **API Development:** REST APIs, JSON, CRUD Operations
 - **Security & Authentication:** JWT Authentication, Role-Based Authorization, Password Hashing (bcrypt)
 - **WordPress & SEO Optimization:** Theme Customization, Performance Optimization, Google Analytics, Google Search Console
 - **Software Engineering Concepts:** OOP, MVC Architecture, Multi-Tier Architecture, SDLC
 - **UI/UX Tools:** Figma, Adobe Photoshop, Adobe Illustrator
 - **Data Analysis Tools:** Python (Pandas, Matplotlib), Power BI, SPSS
 - **Version Control & Tools:** Git, GitHub, Postman, Visual Studio, VS Code

PROJECT EXPERIENCE

Tea Yield AI – AI-Powered Tea Yield & Agricultural Intelligence System -[Live](#) **React.js | FastAPI | PostgreSQL | AI /Machine Learning | RAG**

- Developed an AI-powered agricultural platform that analyzes tea field, weather, soil, fertilizer, disease, and yield data to provide intelligent predictions and recommendations. Integrated machine learning and Retrieval-Augmented Generation capabilities to deliver data-driven agricultural insights and assist tea growers in making informed decisions.

Expense Manager – Personal Finance Management Mobile App - [Download APK](#) **Flutter | Dart | Firebase Authentication | Hive | fl_chart**

- Developed a secure personal finance app with expense/income tracking, monthly budgets, savings goals, analytics dashboards, and local data persistence, featuring Firebase authentication and interactive financial charts for data-driven money management.

StarEvents – Event Ticketing System -[Live](#) **ASP.NET MVC | C# | SQL Server**

- Developed a full-featured web application for event booking and organizer management with dynamic ticket reservations, real-time order summaries, payment handling, and admin dashboards.

Sri Lanka - Tourist Attraction Finder -[Live](#) **HTML | PHP | MySQL | JavaScript**

- Developed a responsive tourism platform featuring tourist attraction discovery, interactive maps, travel guidance, user authentication, and offline functionality for reliable access.

Quick Job Finder – AI-Powered Recruitment & CV Builder Platform – [Live](#) **React.js | FastAPI | Python | PostgreSQL | SQLAlchemy | AI/ML**

- Implemented AI-powered CV analysis and semantic job matching, secure authentication with role-based access, ATS resume scoring, AI CV generation, job posting and application management, and deployed the full-stack system using Vercel, Render, and PostgreSQL.

Sky Track – Real-Time Weather Tracking Desktop Application – [Download .exe File](#) **Angular | TypeScript | Tauri | Open Weather Map API | Leaflet | News API**

- Developed a cross-platform desktop weather application with real-time location-based weather, forecasts, interactive weather maps, alerts, weather news, and a task calendar with local data persistence.

Ceylon Fresh - Online Supermarket E-Commerce Platform -[Live](#) **React.js | Vite | Node.js | Express.js | MongoDB | Render**

- Developed a full-stack e-commerce platform with product management, authentication, shopping cart, order processing, and admin/seller features, integrating RESTful APIs and deploying the backend on Render.

Fitness Web Application -[Live](#) **Next.js | React.js | Node.js | MySQL**

- Developed an interactive fitness platform with centralized user, health, and activity management, secure authentication, trainer connectivity, progress tracking, and data-driven dashboards.
