PROFESSIONAL SUMMARY

Detail-oriented IT professionals with a strong background in system support, troubleshooting, and network fundamentals. Experienced in installing, configuring, and maintaining hardware, software, and operating systems in fast-paced environments. Skilled in diagnosing technical issues, providing user support, and ensuring system security and performance. Possesses a solid understanding of networking concepts, database management, and IT infrastructure with a proactive approach to problem-solving and service delivery.

EDUCATION

Bachelor of Engineering (Hons), Computer Software Engineering Jan 2025 – Jan 2026

London Metropolitan University, United Kingdom

Status: Completed, Results Second upper

Pearson BTEC Higher National Diploma, Computer Software Engineering Jan 2023 – Jan 2025

ESOFT Metro Campus, Sri Lanka

Grade: Merit

General Certificate of Education (O/L and A/L) 2018 – 2021

Siri Saman College, Deraniyagala, Sri Lanka

TECHNICAL SKILLS

-
- **Operating Systems:** Windows, Linux (Ubuntu), Windows Server (Basic)
 - **Networking:** TCP/IP, DNS, DHCP, LAN/WAN, Router & Switch Configuration (Basic)
 - **System Administration:** User Account Management, System Installation, Software Configuration, Backup & Recovery
 - **Hardware & Troubleshooting:** PC Assembly, Hardware Diagnostics, Printer & Peripheral Support
 - **Databases:** MySQL, SQL Server (Basic Administration)
 - **Cloud & Virtualization:** AWS (Basic), VirtualBox, VMware (Basic)
 - **Security & Access Control:** Firewall Basics, User Permissions, Role-Based Access Control
 - **Tools:** Remote Desktop, AnyDesk, TeamViewer, Git, Microsoft Office
 - **IT Practices:** IT Support, Technical Documentation, Help Desk Support, Incident Resolution

PROJECT EXPERIENCE

Tea Yield AI – AI-Powered Tea Yield & Agricultural Intelligence System -[Live](#) **React.js | FastAPI | PostgreSQL | AI /Machine Learning | RAG**

- Developed an AI-powered agricultural platform that analyzes tea field, weather, soil, fertilizer, disease, and yield data to provide intelligent predictions and recommendations. Integrated machine learning and Retrieval-Augmented Generation capabilities to deliver data-driven agricultural insights and assist tea growers in making informed decisions.

Expense Manager – Personal Finance Management Mobile App - [Download APK](#) **Flutter | Dart | Firebase Authentication | Hive | fl_chart**

- Developed a secure personal finance app with expense/income tracking, monthly budgets, savings goals, analytics dashboards, and local data persistence, featuring Firebase authentication and interactive financial charts for data-driven money management.

StarEvents – Event Ticketing System -[Live](#) **ASP.NET MVC | C# | SQL Server**

- Developed a full-featured web application for event booking and organizer management with dynamic ticket reservations, real-time order summaries, payment handling, and admin dashboards.

Sri Lanka - Tourist Attraction Finder -[Live](#) **HTML | PHP | MySQL | JavaScript**

- Developed a responsive tourism platform featuring tourist attraction discovery, interactive maps, travel guidance, user authentication, and offline functionality for reliable access.

Quick Job Finder – AI-Powered Recruitment & CV Builder Platform – [Live](#) **React.js | FastAPI | Python | PostgreSQL | SQLAlchemy | AI/ML**

- Implemented AI-powered CV analysis and semantic job matching, secure authentication with role-based access, ATS resume scoring, AI CV generation, job posting and application management, and deployed the full-stack system using Vercel, Render, and PostgreSQL.

Sky Track – Real-Time Weather Tracking Desktop Application – [Download .exe File](#) **Angular | TypeScript | Tauri | Open Weather Map API | Leaflet | News API**

- Developed a cross-platform desktop weather application with real-time location-based weather, forecasts, interactive weather maps, alerts, weather news, and a task calendar with local data persistence.

Ceylon Fresh - Online Supermarket E-Commerce Platform -[Live](#) **React.js | Vite | Node.js | Express.js | MongoDB | Render**

- Developed a full-stack e-commerce platform with product management, authentication, shopping cart, order processing, and admin/seller features, integrating RESTful APIs and deploying the backend on Render.

Fitness Web Application -[Live](#) **Next.js | React.js | Node.js | MySQL**

- Developed an interactive fitness platform with centralized user, health, and activity management, secure authentication, trainer connectivity, progress tracking, and data-driven dashboards.
